

## Three-Color Volleyball

NFHS VB Rules 3-2-1 states, "Beginning in 2010-11, all panels of the ball shall be solid white or a minimum combination of three colors (with each paneling being a solid color) and of which at least one-third of the panels shall be solid white."

**At their August meeting, the NSAA Board of Control approved a three color ball for district and state play in 2010. The ball will be navy/silver/white.**

During the regular season you will have the option of either using the white ball or a three color ball.

Balls to be used for varsity competition must display the NFHS Authenticating Mark.
